# Adolescent Workshop

## Implementing the Whole Third Plane

## Thursday, 4 June 2009, Sydney

Implementing the Third Plane of Education, taking Australian examples from where they are; Mr Kahn extrapolates the future of adolescent programming in Australia based on his now intensive 12 years of place based contextual learning both at the urban and farm locations in USA. He will present outcomes of advanced Montessori education beginning at the upper elementary and continuing through age eighteen including a careful integration of the International Baccalaureate Assessment in relation to the last two years of high school. The total effect will be to define the adolescent implementation in light of where it begins in the elementary and where it ends at age eighteen so that all program implementation is targeted within a very clear framework.
